

2002 Alcan team info

Preferences, options, etc

Our team members sharing a room are _____

The basic entry fee includes one vehicle, one or two drivers, nine nights accommodations (from Quesnel through Jasper), banquets, and other freebies. Teams will be responsible for their own arrangements before the event start and for the optional ferry trip.

Our sizes are: T-shirt _____ Jacket _____

For 3-person teams (check which applies):

- Our 3rd person is _____. We understand they'll probably be in a shared room with someone from another team.
- We'd rather all stay together. Just do a big room with an extra bed...

For cycles:

- Please put me in a shared room with _____. (*Organizers will assign roommates if needed*).
- I declare _____ as my "buddy(s)". (*"Buddy groups" of 2 or 3 cycles are asked to ride together on transit sections. Groups must be declared before the event start, members will have consecutive numbers if declared by June 1*).

Other preferences & options (check or circle choices as applicable).

- We'd want to attend an "Alcan novice" orientation Tuesday August 13 if offered (noon-2pm?).
- We intend to take the LAND / FERRY route for days 3 & 4 (circle which route).
- Put us where the action is, even if the room's over the bar (we'll be there anyhow).
- We're serious about this rally stuff, give us a quiet room even if it's down the street.
- We DO / DO NOT intend to sign the film release. (*Toolbox Productions will furnish nice embroidered Alcan patches in exchange for your signature*).
- We'd prefer a HOTEL / MOTEL type room if a choice was available (circle one).
- We'd like a SMOKING / NON-SMOKING room (circle preference).
- We'd like a room with ONE / TWO beds (circle preference).
- Please send us more information on Yellowknife tours for our "day off".
- We'd like a room for an additional night at the Royal Canadian Lodge in Jasper. (*The first night is included, extra nights are \$220 Canadian plus taxes and must be guaranteed*).
- We'd like a special dietary choice at banquets if there is a fixed menu.
